

Why ISTOCX is best for you to digitalize?

Digital securities modernize raising capital by upgrading a traditionally illiquid, tedious, and costly process. Some features of digitized securities are:

Compliance

Built-in global regulatory compliance coded into the DS and protocol levels

Programmable

Self-executing Investor & Issuer rights (dividends, buybacks, etc...)

Liquidity

Access to global markets 24/7/365

Efficient

Eliminate friction and middleman

The Securitize Platform

The Securitize platform is a proven, robust, feature-rich platform with multiple successful issuances of digital securities on the blockchain.
